

# Y.M Yeshika B. Bandara

## Software Engineer Intern

✉ yeshikabandara2001@gmail.com ☎ 0741711849 🌐 LinkedIn 🐙 GitHub 📄 Me

### PROFILE

A motivated and driven undergraduate with a strong passion for software development, cloud technologies, and automation. Committed to continuous learning, innovation, and delivering efficient solutions through smart work and problem-solving skills. Possesses strong teamwork, communication, and leadership abilities, with the capability to adapt quickly to new technologies and collaborative environments. Seeking a Software Engineering internship opportunity to gain hands-on experience in full-stack development, scalable system architecture, cloud-based applications, and modern software engineering practices while contributing effectively to organizational success and technical growth.

### EDUCATION

#### Bachelor of Science in Computer Science

07/2022 – Present

Trinkomalee campus, Eastern University

Current GPA 3.4

#### GCE Advanced Level

Pushpadana girls collage Kandy

Combined Maths, Physics, Chemistry

### PROJECTS

#### Centralized Lost & Found system for University Students

08/2025 – 04/2026

Final Year project

Currently developing a privacy-focused web application for university students to report and recover lost items using React.js and Python Flask. Implementing AI-powered matching algorithm with 80%+ accuracy target and intelligent verification system. Features secure database design, university email authentication, and real-time notifications for seamless item recovery.

**Technologies used:** React.js | Python Flask | PostgreSQL | OpenAI API | JWT Authentication

#### Inventory Management System

05/2026 – Present

individual project

Developed an full-stack Inventory Management System to manage stock, vendors, sales, and billing. Implemented a POS system for real-time sales recording with automatic inventory updates and invoice generation. Built vendor management with approval workflows and automated low-stock email alerts. Added an analytics module to analyze sales trends and recommend reorder quantities. Designed a scalable architecture with secure role-based authentication.

**Technologies Used:**

Node.js, Express, Prisma | React, Tailwind CSS, Recharts | PostgreSQL | Python Flask | JWT | Nodemailer

#### Skill Exchange Web Application

02/2026 – 04/2026

Individual project

Developed a full-stack web application that connects users who want to teach and learn skills. Users can register, create profiles, and add skills they can teach or learn. The system uses an AI-powered matching algorithm to suggest suitable learning partners based on skill compatibility and goals. Users can send connection requests and, once accepted, communicate through a real-time chat system. Implemented secure authentication and designed a structured, scalable architecture with smooth frontend-backend integration.

**Technologies Used:**

Spring Boot, Java | React, Material-UI | PostgreSQL | Groq API (AI Integration) | Spring Security, JWT | WebSocket (STOMP, SockJS)

*Group Project*

Designed and developed a rule-based system that delivers emergency medical guidance. Supports 25 medical conditions across 8 categories, providing step-by-step treatment instructions and emergency alerts based on American Red Cross guidelines. Integrated the knowledge base with a web interface to ensure seamless and reliable user interaction.

**Technologies used :** React.js | Node.js | Prolog | JavaScript | REST API

**SKILLS**

---

**Programming**

Python | Java | JavaScript | C++

**Frontend Development**

HTML | CSS | React.js | Tailwind CSS | Figma

**Backend Development**

Flask | Spring Boot | Node.js | Express.js

**Databases**

MySQL | PostgreSQL | MongoDB

**Cloud & DevOps**

AWS | Firebase | Docker | Git

**Tools**

GitHub | Postman | VS Code

**Core Concepts**

Data Structures | Algorithms | OOP | SDLC

**Other**

Video Editing

**SOFT SKILLS**

---

Problem Solving

Team work

Time management

Communication

Attention To Detail

**LANGUAGES**

---

English (Professional) | Sinhala | Tamil

**DESIGNS**

---

**Redesign a campus web** 

**Banking app design** 

**Quiz app design** 

**EXTRA - CURRICULAR ACTIVITIES**

---

**Ass. Secretary**

*Tricom-Computer science society, Trincomalee campus*

**Active Member**

*IEEE Student Branch EUSL*

**School Prefect**

*2018-2020*

## ACHIEVEMENTS

---

BIT HACK- Trincomalee Campus  
Cre8X 2.0- Kotelawala Defence University
